Dynamic • Positive • Productive

Child Care Owners and Directors RAVE about Julie and this Program:

“When I first took over the center, staff were beginning to look for other jobs and wouldn't recommend the center to friends or family for jobs or childcare. Now, I have people calling me and emailing me for work and child care openings. I feel like **I've built the foundation for a successful business.**”

-Kathy Monahan, Owner, Massachusetts

“Investing in Julie's program was the **BEST decision I made.** Julie has this incredible insight to be able to look at a child care program and communicate what action steps need to be taken to create an excellent program including a motivated team. Since working with Julie we have attracted some of the best staff members possible.”

Tami Nix, Owner, Archway Academy

“I first heard Julie speak at a childcare conference last Fall and immediately knew that she was our missing link. Over the years we've struggled enormously to motivate our employees and improve the quality of our work environments. 10 minutes after she finished her presentation, I'd signed her up to come to CT on two occasions. In February she spent two full days with our directors and assistant directors, and as much as hate words like this, it was indeed transformational. **Julie is the real deal and I guarantee she'll bring things to your programs that will also be “transformational.”**”

Gerry Pastor & Jane Porterfield, Owners Educational Playcare LTD, Massachusetts
