| Learner Objectives List 3 objectives for the session participants using measurable, behavioral terms (e.g. describe, discuss, list, demonstrate, state, explain, identify, plan, utilize, etc.) These should state knowledge or skills the participant would be able to demonstrate. You should be able to start your objective with the phrase “At the end of this session the participant will be able to” and have it make sense. | Outline of Content Provide an outline of the content to be presented for each objective. Restatement of the objective is not acceptable as content. | Timeframe State the number of minutes per objective (NOTE: Must add up to the total minutes for the session) | Teaching Method Describe the teaching method and learner assessment methods to be used for each. (For example: lecture, demonstration, small group activity) |
